An interactive presentation and discussion focused on the basic knowledge of land use planning. The one day session is focused on the practical application of land use planning legislation carried out by planning commissioners, administrators, attorneys, and elected officials. This program provides an excellent opportunity for community representatives to gain a better understanding of their responsibilities; understand the legal principles of planning and its application; become better aware of the community planning decision-making process; and how to interact with community neighbors.

Mr. Milligan is active as a consultant for community planning in Nebraska. He has several years serving the City of Hastings in land use, zoning, subdivision, and annexation in the capacity as staff planning advisor to the planning commission and city council.

Mr. Huston is a practicing attorney active in land use planning and represents clients in zoning and permitting processes. He represents clients in housing development, tax increment financing, and land use redevelopment.

Mr. Milligan and Mr. Huston have served as professional trainers for the Nebraska Planning Institutes for more than the past fifteen years.
